Design-led, elegant and earthy.
The perfect blank canvas for
your event at Holy Carrot

Vegetables, *fire*, fermentation. Waste nothing, taste everything.

Using time-honoured techniques of fire and fermentation, we craft dishes that draw out the deepest flavours of every vegetable. Pure, vibrant, uncompromised and simply delicious.

Our menus are hyper-seasonal, bringing you ingredients from incredible small-scale growers, such as Shrub, Natoora and NamaYasai, all leaders in regenerative farming, ecological diversity and health.

Downstairs, our fermentation lab serves as the engine of creativity. Guided by a “Waste Nothing, Taste Everything” philosophy, our kitchen embraces the challenge of using every part of each ingredient, transforming the unique produce we receive into something extraordinary.

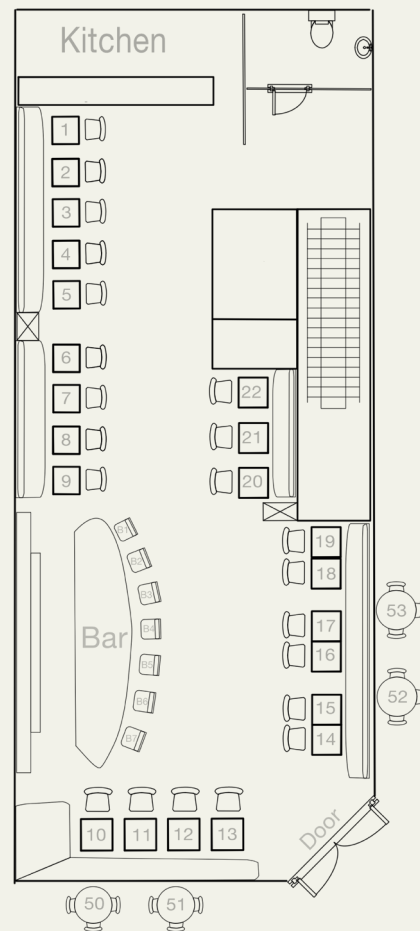

Curate your very *own* vision.

Holy Carrot provides a space ready for that personal touch. From applying branding to bespoke menus, we embrace the challenge!

Our team provides truly exceptional hospitality, working with you to deliver an event that is effortless and memorable.

Featuring vegetable-centric menus, a bio-dynamic wine list and cocktails created in house, we can help design a bespoke package for your event to make sure everything runs smoothly.
